

JOB LISTING

Marine Science Instructor at SEACAMP San Diego

We are looking to full-time staff that will be able to commit to a position beginning on or about January 18, 2010 through the middle of August of 2010, with the possibility to extend.

Job Duties include (but are certainly not limited to):

- All lab and field marine science instruction for students grades 5 through college
- All supervision of students, including in-water supervision
- Transportation of students in 15-passenger vans
- General camp cleaning and maintenance
- Basic computer and digital camera use
- Periodic overnight supervision
- Working as part of a team to provide an positive and educational experience to a wide variety of students

Qualifications:

- Bachelor's degree in Biology, Marine Biology or a related field
- Strong understanding of basic marine biology principles
- Excellent water skills, including comfort snorkeling and the ability to complete Red Cross lifeguard course during training (previous lifeguard experience a plus)
- Desire to work with grade school students
- Excellent verbal and written communication skills
- CA class B license or ability to acquire class B license
- Teaching, snorkeling and diving experience a plus
- Knowledge of local marine life a plus
- Ability to perform demanding work including supervising, teaching, and lifeguarding students in and out of the water.
- Ability to work flexible hours, including evenings and weekends
- Ability to pass Department of Justice and FBI background check

Please check out the 2-day and 5-day schedules on the school group page of our website for a good idea of the types of activities you may be expected to lead.
